

<b>Service</b>	<b>Price per unit (€)</b>
<b>Amplicon Sequencing*</b>	
Gene amplicon sequencing inc. DNA extraction	<b>27.60</b>
Gene amplicon sequencing exc. DNA extraction	<b>17.00</b>
<b>Illumina Sequencing Library Preparation**</b>	
Genome/metagenome	<b>50.48</b>
rRNA-depleted transcriptome/metatranscriptome	<b>138.13</b>
<b>Long-read Whole Genome Sequencing (WGS)</b>	
WGS inc. DNA extraction	<b>64.68</b>
WGS exc. DNA extraction	<b>54.08</b>
<b>Long-read Metagenome Sequencing</b>	
Ligation library preparation - single sample	<b>172.57</b>
Ligation library preparation - multi-sample/barcoded	<b>230.07</b>
PromethION flowcell	<b>913.57</b>

\*for a sequencing depth of 15,000 reads/sample

\*\*sequencing depth is determined individually based on project needs,  
approximate sequencing costs are 10 €/1 million read pairs
